

Costs of the Eurotransplant EPT schemes and shipments 2019 for centers that are not affiliated to Eurotransplant

In order to keep the EPT cost neutral for our laboratory we charge the participating laboratories not affiliated to Eurotransplant for the different aspects of our EPT

In 2017 the prices of the different aspects will be:

Shipment of the material: € 58,- per shipment

Participation in typing/crossmatch exercise: € 125,- per year

Participation in the screening exercise: € 100,- per year

Participation in both exercises: € 200,- per year

If you would like to receive more information, please contact us at etrl@eurotransplant.org.

Costs of reagents in 2019

IgM control serum: €12,50 per ml.

Vials of 2ml and 4 ml are available

IgM blend (containing only IgM antibodies): €25 per ml

IgG blend (containing only IgG antibodies): €25 per ml

Shipping costs: Per shipment of these reagents €25,- will be charged

The IgM and IgG blend can also be used as controls in SPA-based assays. The IgM control serum is only suitable for CDC testing.

If you would like to receive more information, or if you like to order (one of) these reagents, please contact us at etrl@eurotransplant.org.
